

# TARGAIR

## INTERACTIVE DISPATCHING ALERTS

### OVERVIEW

The mobile app **TARGAIR** allows you to get the availability of your fire team in real time.

In less than **10 seconds**, you will obtain the status of the interventions and thus allow you to make a quick decision.

How many firefighters are available?  
Do you have enough firefighters for a request for help?

### REAL-TIME RESOURCE STATUS

Targa Air informs you of the status of each communication during an emergency.

If the message is not delivered to the terminal of one of your team members, Targa Air will inform you.

When the message has passed the status stage, stakeholders will be able to evaluate and make a quick decision

### BENEFITS

- ▶ Respond more quickly to emergencies
- ▶ Know the workforce in real time
- ▶ Integration with 911 services, first responders and public works
- ▶ Management of availability and watch
- ▶ Management of detailed reports
- ▶ Compatible with all cellular networks

### ADDITIONAL TOOLS

- ▶ Availability module
- ▶ Schedule Management
- ▶ Shifts replacement
- ▶ Reports and statistics
- ▶ Open architecture
