

TARGA AIR

INTERACTIVE DISPATCHING ALERTS

OVERVIEW

With the **TARGA AIR** mobile application, you get the availability of your team in real time.

In less than 10 seconds, you will obtain the status of the current intervention allowing you to make a quick and accurate decision.

How many firefighters are available?

Is my workforce adequate for this event?

REAL-TIME RESOURCE STATUS

During an event, TARGA AIR displays the status of each communication. If the message has not been delivered to one of your team member's terminal, TARGA AIR will let you know.

Knowing that the message has been delivered, stakeholders can evaluate the situation and make decisions accordingly.
